

Company Name: ZolkC Ltd
Project Name: ZolkC Ltd

Funding: Consultancy Contract

ZolkC was founded in 2008 and uses an innovative software platform to create handheld multi-media guides for visitor attractions across the world. ZolkC also provides a cross platform solution for quickly developing tourist guides for the Android and Ios app stores.

PROBLEM TO BE SOLVED

ZolkC need development work for existing and new apps and onsite visitor attractions, as well as consultancy services for best practice in maintaining existing hardware and software installations.

ZolkC wish to move their platform forward to provide more innovative solutions for attraction creation usable by attraction managers. E.g. Using a template based paid tiered model

HOW GATEWAY DELIVERED SOLUTION FOR INDUSTRY

A number of existing apps have been updated and new apps have been created for ZolkC using their existing software platform.

MSTG have provided consultancy for on going problems at existing attraction sites.

MSTG have also provided input for potential new contract in term of cost and development time for potential new projects.

MSTG are examining ZolkCs existing model and are engaged in creating a proposal for moving the platform provided by ZolkC forward.

IMPACT FOR THE COMPANY

The solution has helped ZolkC stay abreast of a changing market and customers expectations while providing valued support for existing customers.

WHAT OUR CUSTOMERS SAY

“ ZolkC engaged with the TSSG to provide on going support for existing software and attraction installations as well as providing new apps, the TSSGs expertise in the fields of Location (indoor and outdoor), Domain Specific Languages, Mobile Development, Server Technologies and Mobile hardware requirements, have proved invaluable in allowing ZolkC to maintain its lead in bringing innovative software and hardware solutions to demanding customers.
